

Take part in the ultimate birding high...

...on the roof of the world

Nepal - home to the legendary Gurkha soldiers, the mountain Sherpas, 8 of the world's 10 highest mountains and around 900 bird species including the rare Giant Hombill and Bengal Florican. We'll take you up in the Himalayan mountains, down in the jungle and rafting on Nepal's backwaters. Our tour also includes an Everest Mountain Flight, an elephant safari, an easy trek in the footsteps of Prince Charles, a magical mystery tour of Kathmandu, the chance to see a living goddess - and maybe a Yeti! This isn't just a birding holiday of a lifetime, but an adventure of a lifetime
